WELCOME TO UCONN

In 1881 brothers Charles and Augustus Storrs donated land and money to start an agricultural school in Connecticut. Today their gift has become one of the top research universities in the nation.

Comprising 14 schools and colleges, and enrolling 30,250 students from 46 states and nearly 100 countries, UConn is home to 500+ student clubs and organizations, 300+ study abroad programs, and 100+ majors. And our Huskies have won 15 NCAA championships in men’s basketball, women’s basketball, men’s soccer and women’s field hockey.

TECH PARK

In collaboration with industry partners and entrepreneurs, UConn is creating a Technology Park on our Storrs campus. The Tech Park will accelerate innovation, link research with its industrial applications, create jobs and new

businesses, and advance economic development. Visit innovation.uconn.edu for more.

FACULTY 500

UConn has started an ambitious and unprecedented hiring initiative to expand its faculty numbers across academic disciplines. The four-year investment in 500 faculty positions will build on our strengths and grow new expertise in strategic areas, boost the University’s research productivity, and provide outstanding teaching and service to UConn students. For details, go to uconn.edu/facultyhiring.

BIOSCIENCE CT

Based at the UConn Health Center in Farmington, Bioscience CT will put Connecticut at the forefront of the bioscience industry, improve access to state-of-the-art care today, and help meet the health care needs of Connecticut’s future. Learn more at biosciencect.uchc.edu.
